

Watkins Glen Solar Energy Center

Fact Sheet

NextEra Energy Resources, LLC proposes the 50-megawatt Watkins Glen Solar Energy Center to power New York with clean, renewable energy. This is an exciting project combining large-scale renewable solar energy and the legendary Watkins Glen International.

Watkins Glen Solar Energy Center, owned 100 percent by NextEra Energy Resources, LLC, has developed a proposal to establish a large-scale solar energy facility located in Schuyler County, New York at Watkins Glen International. Watkins Glen Solar Energy Center would significantly contribute to New York's efforts to meet New York Governor Andrew Cuomo's renewable energy goals.

The proposed project would:

- » Generate up to 50 megawatts of solar energy, providing power for more than 12,000 homes
- » Provide the area with an important and unique opportunity to diversify its energy sources with clean, renewable energy
- » Reduce carbon emissions by an average of 42,000 tons annually -- this is the equivalent of taking more than 8,200 cars off the road
- » Create 125-175 construction jobs

About NextEra Energy Resources

- » A leading clean energy provider operating wind, natural gas, solar and nuclear power plants
- » A portfolio of power generating facilities across the United States and in Canada
- » The world's largest generator of renewable energy from the wind and the sun
- » A subsidiary of NextEra Energy, Inc., with headquarters in Juno Beach, Florida
- » Approximately 97 percent of our electricity comes from clean or renewable sources
