

Case Number 17-F-0595

*Application of Watkins Glen Solar Energy Center, LLC for a Certificate of Environmental Compatibility and Public Need Pursuant to Article 10 of the Public Service Law for Construction of a Solar Electric Generating Facility Located in the Town of Dix, Schuyler County.*

## AFFIDAVIT OF SERVICE

I, Austin Philleo of Mower, in Syracuse, New York, caused the document entitled 'Watkins Notice of Submission of Application', a copy of said document is attached, to be served, on September 16, 2020 via US Postal Service first class mail, to 236 addresses. The mailing was sent to recipients on the project stakeholder list which includes participating landowners and adjacent landowners. The mailer was also delivered electronically to 51 email addresses. These email addresses were provided by individual stakeholders and by members of the DMM Party List.

Copies of said stakeholder list, adjacent landowners list, online stakeholder list and mailing report from Dupli Envelope & Graphics is attached hereto.

Austin Philleo

Sworn to me before this 21 day of September, 2020.

Case 17-F-0595  
Watkins Solar Energy Center LLC  
50 MW Solar Photovoltaic Generation Project  
Town of Dix, Schuyler County, New York

**NOTICE OF SUBMISSION OF APPLICATION**

Watkins Solar Energy Center LLC (“Watkins Solar” or “Applicant”) is seeking authority from the New York State Board on Electric Generation Siting and the Environment (the “Siting Board”) to construct a 50 megawatt (“MW”) solar photovoltaic electric generating facility (the “Project”) in the Town of Dix, Schuyler County, New York, under Article 10 of the New York State Public Service Law (“PSL”). Pursuant to PSL § 164 and 16 NYCRR § 1000.7, Applicant hereby provides notice that, on or about September 30, 2020, it intends to file its Application with the Siting Board for a Certificate of Environmental Compatibility and Public Need authorizing construction and operation of the Project.

The Project will consist of a 50 MW solar energy center located on land leased from an owner of private property. Project components include commercial-scale solar arrays, access roads, fencing, inverters, buried electric collection lines, a collection substation, and electrical interconnection facilities. The Project will generate electricity to be delivered into New York State’s transmission system via an onsite 115 kV switchyard that will be transferred to New York State Electric & Gas Corporation to own and operate.

The Project will safely generate enough clean, renewable electricity to power approximately 12,000 households. As a renewable resource, the Project will avoid harmful emissions and other adverse impacts associated with traditional fossil-fueled generating facilities, such as water usage. The Project will also be compatible with New York State’s policies promoting renewable energy including the 2015 State Energy Plan (SEP), as amended in 2020, the 2016 Clean Energy Standard (CES), and the Climate Leadership and Community Protection Act, which collectively require at least 70% of the State’s electricity to be derived from renewable resources by 2030, elimination of emissions from the electric sector by 2040, and development of 6,000 MW of solar energy by 2025. Further, the Project will benefit the economic growth of the local community through the creation of temporary and permanent jobs and increased local tax revenues.

Construction and operation of the Project will not result in adverse impacts to health, air, or water resources. The Project is mostly located on land that is already cleared and therefore avoids disturbances to forested lands to the maximum extent practicable. All impacts resulting from construction and operation of the Project have been minimized to the maximum extent practicable.

The Applicant intends to request a Water Quality Certification (“WQC”) pursuant to Section 401 of the Federal Clean Water Act. The WQC is necessary to obtain a permit from the U.S. Army Corps of Engineers.

The Application contains all the information by the proposed stipulations filed in this Article 10 proceeding. Studies and analyses as required by the proposed stipulations and Article 10 address many disciplines such as land use, noise, preliminary engineering, avians, and decommissioning. The Siting Board will determine whether the Application is compliant with the Article 10 requirements. Once it is deemed compliant, the Administrative Law Judges (“ALJs”) assigned to this proceeding will issue a notice that intervenor funds, in the amount of approximately \$ 50,000], will be available for eligible parties participating in the Application phase. The ALJs will also schedule a pre-hearing conference to identify parties, award intervenor funds, identify issues for the hearing, and establish a case schedule. After the hearings, intervenors may submit briefs to the ALJs who will then issue a recommended decision, upon which the Siting Board will render its decision on whether to certify the Project and under what conditions. State law requires that the Siting Board must render a decision on the Application within 12 months of its determination that the Application is compliant with the Article 10 requirements.

Interested, eligible municipal and local parties may apply for intervenor funding to be used to pay for

expenses such as administrative, attorney, and/or consultant fees. A guide to applying for intervenor funding can be found on the New York State Department of Public Service's ("DPS") website by using the following direct link: [goo.gl/avcprS](http://goo.gl/avcprS).

Any interested person wishing to receive all notices concerning the Project may submit a request to Hon. Michelle L. Phillips, Secretary, New York State Board on Electric Generation and the Environment, Agency Building 3, Albany, NY 12223-1350 or electronically to [secretary@dps.ny.gov](mailto:secretary@dps.ny.gov). Documents concerning the Siting Board's review of the Project may be viewed at the DPS website located at [www.dps.ny.gov](http://www.dps.ny.gov) by clicking "Search" on the homepage and then entering Case 17-F-0595 in "Search by Case Number."

Additional information on how to participate in this proceeding may be obtained by contacting Watkins Solar's project representative or the Siting Board Public Information Coordinator:

Subject: Watkins Glen Mailing Our Job J1655312

Scott,

As discussed, the Watkins Glen mailing dropped September 16th/

These mailed First Class Qty 236 and since qty was under 500 no postal discount qualified.  
Forever Stamps were affixed so no postal 3602 was generated.

Thanks so much for your business and we look forward to working with you again soon.  
Please let me know if any questions.

Thank You,

Nancy Osborn
